

PEP SURVEY RATING EXPLANATION

- RATINGS OF 1 - 5 CONSISTENT WITH OSHA PEP RATING SYSTEM
- DEFINITIONS
 - Level 1: No program or ineffective program
 - Level 2: Developmental program
 - Level 3: Basic program. Represents minimal acceptable compliance level for OSHA for a safe and healthful workplace.
 - Level 4: Superior program. Represents safety and health programs that have a planned strategy for continuous improvement and a goal of achieving an outstanding program level.
 - Level 5: Outstanding program. Represents safety and health programs that are comprehensive and are successful in reducing workplaces hazards.

PEP SURVEY RATING EXPLANATION

- **MANAGER'S SURVEY**
 - Measures the intended level of implementation of the safety program
 - Each level on survey (Level 3, 4, or 5) provides a “roadmap” of the content of a safety program for a basic, superior, or outstanding program
 - A rating of 3 or less on the Contractor Safety element shown in the data scoreboard should require discussions with contractor management to identify and resolve issues
- **EMPLOYEE'S SURVEY**
 - Measures the actual level of implementation of the safety program in the workplace
 - A “gap” of one integer or more on the Employee-Manager data plot indicates a communication problem between management and employees for the element in which the “gap” occurs

EMPLOYEE – MANAGEMENT PLOTS

A plot of the scores for each of the fourteen elements are shown for:

1. Employees
2. Managers
3. Overall Center

The employee and manager plots should be compared to determine consistency between the employee and manager view of their safety program. A score deviation greater than one integer indicates a communication problem between management and employees for the element in which the deviation occurs.

The overall center average is provided to allow the organization to determine how they compare to their center.

“Check” and the average score are used to flag any data point on the employee plot that is less than 3.0.

MORT ANALYSIS LEGEND

Number inside the circle or hexagonal corresponds to the question number on the survey.

Number below the circle or hexagonal is the average of all responses to that question.

Questions with average response scores less than 3.0 are flagged (colored) and designated “Check”.

Red flag (Hexagonal) – OSHA related issue

Blue flag (Circle) – NASA related issue

GET WELL PLAN

The Get Well Plan should be used in conjunction with the MORT Chart. Any question flagged on the MORT Chart as having an average response score less than 3.0 will result in a corresponding corrective action recommendation in the Get Well Plan. These recommendations were derived from the source documents used to develop the survey and are intended to guide the organization in developing a plan to improve weak areas in their safety program.

Questions rated below 3.9

MANAGEMENT LEADERSHIP AND EMPLOYEE PARTICIPATION

MANAGEMENT LEADERSHIP

Q 5 - (ASI, CPR 1-4) (OSHA 1960.8) The NASA Administrator requires that all managers and employees be familiar with the requirements of the ASI.

EMERGENCY RESPONSE

FIRST-AID

Q 76 - (NPG 8715.3, para. 8 & 9) (OSHA 1910.151) Personnel trained in rescue, first-aid, and medical care should always be available on-site.
